

**TECHNICAL DATA  
AND  
SPECIFICATIONS**

***Metallics***

## **OGF Series**

Dust free version of OGP series  
Multi-purpose foil with versatile adhesion for various substrates such as printed, unprinted & varnished papers.  
Good transferring at low temp. & low pressure.

### **Characteristics**

- Good adhesion properties on printed, non-printed and varnished papers
- Easy Make Ready & less distortion of stock by low activation temperature of the foil
- Good definition & dust free characteristics
- Good workability on various stamping machines
- Suitable for both very fine line and solid design
- Good heat resistance
- High gloss level

### **Application**

Folding cartons, cosmetic packaging, liquor and confectionery industry, cigarette packaging, film packs, greeting cards, labels and general graphic applications

### **Stamping Temperature**

- Vertical: 100 -135°C ( 210-275°F)
- Rotary : 180-200°C ( 360-390°F)

### **Storage Shelf Life**

12 month under normal condition (10 ~35 C, Below 60% RH)
