

Presspahn

Is a good low cost smooth surface make-ready base for flat stamping on short runs. It is especially good for thin sheets of substrate where Pertinax may be too hard and for large solid area foiling. Presspahn reduces the effect of gassing / air entrapment on sealed surfaces due to its cushioned base.

- Sheet sizes:

850mm x 915mm x 0.50mm	(Ref: 872120)
530mm x 730mm x 0.50mm	(Ref: 872121)
825mm x 915mm x 0.80mm	(Ref: 872122)
805mm x 520mm x 0.50mm	(Ref: 872123)

- Main advantages:

Excellent for short to medium runs; reduces effect of gassing
